

MANAGED IT & CLOUD SERVICES

Delivering IT support and consultation services, on-premise and in the cloud.

Myrtec is a leading national Managed IT and Cloud Services Provider that offers proactive IT support, 24x7 help desk services, strategic IT consulting services, hosted cloud desktops and managed cloud services. Our clients are small, medium and large businesses within Australia and the APAC region, operating across a broad range of industries.

By providing tailored IT support and services, we enable our clients to focus on their business operations while we manage their IT networks and provide expert IT strategy and consulting services.

Myrtec has extensive experience supporting business technology, both on-premise as well as in the cloud. We understand what businesses need from their IT systems: protection, reliability, scalability and affordability.

Our team of experts will work with you to review your existing infrastructure and design a cloud or on-premise solution based on your unique requirements. Whether you are starting from scratch or migrating your products to the cloud, our experienced team will help you to successfully implement a cloud based IT strategy.

AT MYRTEC, WE HELP OUR CLIENTS TO:

REDUCE CAPITAL EXPENDITURE

Using cloud technology such as a hosted desktop environment reduces the need to replace hardware.

ENHANCE PRODUCTIVITY

Increase staff productivity through collaboration, training and by eliminating downtime.

IMPROVE SECURITY

Virtual desktops are protected with higher levels of security than traditional desktops, with easier disaster recovery.

TRANSITION TO CLOUD

Access business data from any location, at any time and from any device, making it easier to work remotely.

INCREASE BUSINESS AGILITY

By releasing the burden of on-premise hardware, opportunities can be seized faster than your competitors.

BETTER PREDICT IT COSTS

Take control of your IT budget with predictable low cost monthly subscriptions.

CHANGING THE NATURE OF IT SERVICE DELIVERY

Founded in 2009, Myrtec is set on changing the nature of IT service delivery through the use of innovative technologies and a unique approach to IT support.
